

In the specification:

*Please replace the paragraph at page 21, lines 7-11 with the following amended paragraph:*

---Patients from ~~example~~ example 1 who were not pregnant after 3 to 6 cycles of IUI, were proposed a treatment with IVF or ICSI. These treatments are proposed upfront to patients whom infertility cause is a severe tubal problem, or a severe endometriosis or a partner's severe sperm severe alteration. These patients can be treated prior her IVF or ICSI cycle with a oral contraceptive to precisely program their menstruation date.---
